Another Successful Sales Transaction!

In another landmark transaction, TransFunds M&A is pleased to announce that Premium Ventures Inc., an Ontario based oversized dimensional flat deck carrier, has been sold to TFI International. TransFunds M&A successfully represented the seller!

“When the decision to sell was made, we reached out to Alex Winant of TransFunds M&A. We discussed potential buyers, market conditions, and the optimal timing for the sale. Our history with Alex goes back to 2012 when he and his team assisted us in selling a previous specialized transportation company. With his industry expertise and effective marketing strategies, we had multiple offers to choose from and were able to sell quickly.

In 2022, we once again collaborated with Alex and his team. They used our financials and equipment list to craft a professional marketing plan. Generating several offers, they helped us identify the best match for our company and employees, ultimately selecting a buyer capable of ensuring a successful deal. From offer acceptance to closing, only 120 days transpired. We attribute this success to Alex and his team, without whom this achievement wouldn't have been possible. Our heartfelt appreciation for a job excellently executed.”

Mark and Lisa Kreplin, Owners
Premium Ventures Inc.
