### Another Successful Sales Transaction!

---

In another landmark transaction, TransFunds M&A is pleased to announce that Ulch Transport, an Ontario based reefer and tanker company, specializing in the transportation of food-grade products, has been sold to TFI International. TransFunds M&A successfully represented the seller!

“We are incredibly grateful for the exceptional service provided by Alex Winant and the TransFunds M&A Team. We wholeheartedly recommend them to any Specialized Transportation Company seeking top-tier M&A services. They truly go above and beyond to deliver results. The TransFunds M&A Team did an outstanding job of engaging the potential buyers early to create a competitive process. They invested significant time in learning our value proposition, the nature of our business model, financial position, and strategically marketed our Transportation Company to the right people. While they remained focused on the deal, we managed to sustain our business operations smoothly. The team was well-coordinated and worked tirelessly through the close, helping Ulch Transport maximize its value. Overall, it was a great experience!”

Bob Wilhelm and Joe Wilhelm, Owners  
Ulch Transport Limited
