Mergers & Acquisitions

Another Successful Sales Transaction!

In another landmark transaction, TransFunds M&A is pleased to announce that Petro Tech Hauling, a Midwestern Petroleum Tank Carrier, specializing in petroleum hauling, has been sold to Breckenridge Trucking. TransFunds M&A successfully represented the seller!

“Alex approached me numerous times over the years about offering his M&A services to sell our business. This past year, we decided to engage TransFunds M&A to market our company. Alex and his team put together a perfect strategy for us to target buyers specific to our industry. We work in a niche industry and were skeptical that attracting offers was going to be a challenge for Alex. We were pleasantly surprised at the numerous qualified offers that Alex brought us. Alex and his team at TransFunds M&A did a great job of filtering out companies that were just “kicking the tires” and only brought us legitimate buyers. In the end, we were able to sell our business quickly and at full value due to TransFunds M&A’s expert guidance. Forever grateful.”

– Paul & Marsha Torstrick, Petro Tech Hauling
